How AI is Changing the Design Process

As a designer who has worked for our company for 13 years, I'm always looking for ways to improve my process. Lately, I've been exploring the ways that AI can help us with design, and I wanted to share some of my ...see more

AI is revolutionizing our company

Hello everyone,

Just wanted to share how AI is revolutionizing our company. By using AI, we have been able to streamline our operations, make better decisions, and drive growth. From automating repetitive tasks to predicting future trends, AI has become an integral part of our business strategy. Exciting times ahead!

3 - 26min

AI will replace some jobs but not all. It will create new jobs and opportunities as well. Humans and AI can work together to achieve better results.

Setayesh Yousefnia - UI/UX Designer

3 - 26min

AI-generated art is a fascinating concept that has the potential to revolutionize the art world. It's amazing to see how AI can create unique and beautiful pieces of art that are unlike anything we've seen before.
